

# Reliable extension of your eMobility Infrastructure

## EcoStruxure™ EV Charging Expert Upgrade and Commissioning Package

### Solutions at a glance

The EcoStruxure EV Charging Expert upgrade and commissioning package will ensure that your eMobility infrastructure extension project will be done smoothly and efficiently with newly added features.

#### Schneider Electric will:

- Upgrade your EcoStruxure EV Charging Expert license to extend charging station management capacity and/or to move to dynamic load management.
- Onsite Commissioning for additional charging stations including new zones configuration inside EcoStruxure EV Charging Expert.

### Benefits

- Extend and upgrade your eMobility infrastructure with new functionalities without buying new products
- Minimize upgrade and start-up time thanks to Schneider Electric's fast support
- Benefit from Schneider Electric's expertise to prevent equipment failure and increase reliability
