Wiser™
Smart and Sustainable Homes

Wiser by SE App

CLIPSAL®

Imagine making every home a smart home with Clipsal Wiser.

Be at the forefront of your next smart home installation with Clipsal Wiser™, a solution that combines local know-how with Schneider Electric's unrivalled global R&D and extensive smart home expertise.

Best of all, a Wiser Smart Home solution can be upgraded with modular components as your customer's needs change. Plus your customers can integrate products from the Iconic range, so their Wiser Smart Home can grow with them.

Schneider Electric™

Clipsal Wiser Smart Home components.

Wiser Smart Home Hub

The Wiser system communication interface.
The hub allows automation and moments (scenes), voice integration and control of your homes from a remote location.

CLP501902

Wiser Table Stand for Hub

Optional stand for placing the Wiser Hub on a table or other flat surface.

CLP501902_0001

Wiser Micro Module Switch

Transforms a conventional push-button switch into a connected device you can control from the switch or through the Wiser by SE app.

CLP5011WSZ

Wiser Micro Module Dimmer

Transforms a conventional push-button switch into a connected device you can control and dim from the switch or through the Wiser by SE app.

CLP5010WDZ

Wiser Micro Module Blind Controller

Transforms a conventional double push-button switch into a connected device you can control 240V twin active blind motors from the switch or through the Wiser by SE app.

CLP5015WBZ

Wiser Window/Door Sensor

Detects opened and closed windows and doors, and reports the status to the Wiser Hub. It consists of two separate parts: a sensor and magnet.

CLP591011

Wiser Motion Sensor

Detects movement and measures luminance in a room, and reports the status to the Wiser Hub.

CLP595011

Wiser Temperature/Humidity Sensor

Helps to maintain a comfortable environment in the home by detecting changes in temperature and humidity and reporting climate data to the Wiser Hub.

CLP593011

Wiser Water Leakage Sensor

Detects the presence of water and alerts via an alarm and/or notification. When the sensor is connected to the Wiser Hub and detects water on the floor, it sends out a sound alarm and reports the event to the Wiser Hub.

CLP592011

Wiser 230V smoke alarms

The 230V Wiser smoke alarms can send push notifications and enable lights to come on if smoke is detected. Dual spectrum sensing technology helps to mitigate false alarms. Provided with sealed-in 10yr lithium battery backup.

755WSA (ROUND) CLP599WSA (SQUARE)

Wiser IR Converter

Controls TVs, split A/C or heat pumps and HiFi systems via the Wiser by SE app using infrared (IR) technology.

CLP501401

Iconic Connected Switch 2AX

Ideal for controlling LED lighting and exhaust fans. The small modular housing with intergral terminals allows quick install in 1-6 gang plates. Available in BLE for point to point app control or Zigbee mode for Wiser home automation control with the Wiser Hub.

41E2PBSWMZ-VW 41E2PBSWM-VW

Iconic Connected Dimmer

Provides optimum LED dimming control. Includes ControlLink for multiway dimming. Suitable for 1-3 gang or centre of 5 gang plates. Available in BLE for point to point app control or Zigbee mode for Wiser home automation control with the Wiser Hub.

41EPBDWCLMZ-VW 41EPBDWCLM-VW

Iconic Connected Switch, 10AX

Suitable for a wide variety of loads. Includes ControlLink for multiway switching. Suitable for 1-3 gang or centre of 5 gang plates. Available in BLE for point to point app control or Zigbee mode for Wiser home automation control with the Wiser Hub.

41E10PBSWMZ-VW 41E10PBSWM-VW

Iconic Connected Socket

Provides independant smart control of each 10A socket. Available in BLE for point to point app control or Zigbee mode for Wiser home automation control with the Wiser Hub. Skins purchased separately - e.g. model 3025CSC-VW

3025CSGZ 3025CSG

Wiser Lithium battery smoke alarm

The Wiser Lithium battery smoke alarm can send push notifications and enable lights to come on if smoke is detected. Dual spectrum sensing technology helps to mitigate false alarms. Powered from a sealed-in 10yr lithium battery.

CLP599WSAL

Note: All Wiser devices in BLE default mode, can be converted to Zigbee mode after installation.
