APC

Make reliable

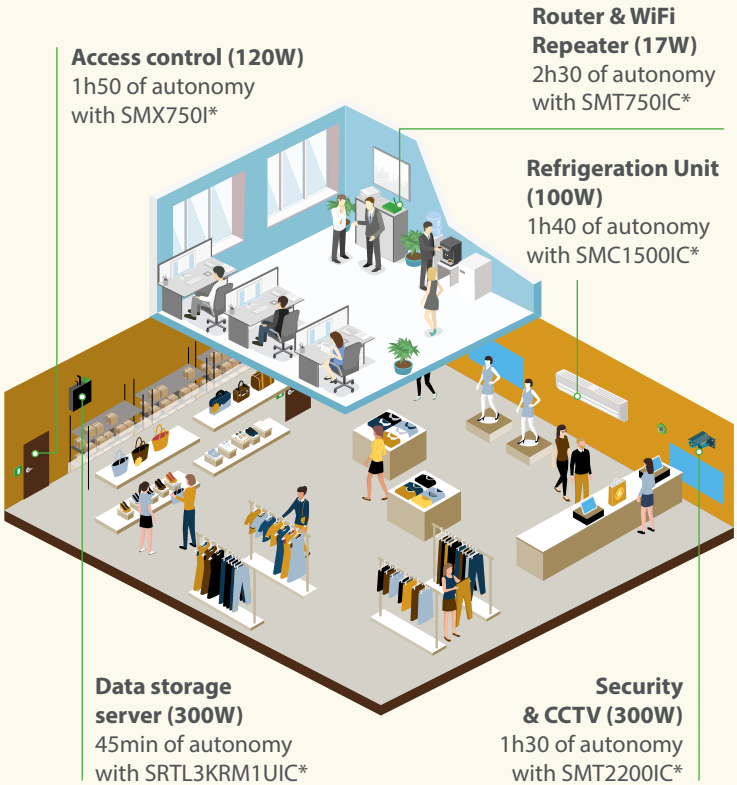

IMPACT

with UPS and portable power solutions

Unexpected power outages can interrupt daily activities. Protect critical systems, appliances, and devices to minimize disruption. **Reliable backup power systems are essential for maintaining operations and safeguarding critical equipment** from power-related issues.

Our range of UPS solutions deliver reliable power protection, so even in the event of a power outage, homes, offices, and small businesses can ensure:

- **IT connectivity** thanks to a stable and uninterrupted internet connection
- **Protect the refrigeration** units and ensure continuous temperature
- Processing **customer orders and invoices**
- **Security and access** uptime of CCTV, access systems and emergency lighting
- **All personal electronic devices** remain fully charged and operational during the outage

UPS solutions from Schneider Electric:
Keeping homes, retail and office premises power-protected, even in the event of a power outage.

*The autonomy values given are an indication. This depends on the power of the equipment to be protected and how it is used. The power of the device to be protected should be checked by a qualified electrician if necessary. Schneider Electric cannot be held liable in the event of a malfunction or lack of autonomy.
