APC

Make reliable

IMPACT

with APC UPS solutions

Unexpected power outages and fluctuations can disrupt office workflows. **Reliable backup power systems play a critical role in safeguarding IT setups and essential office equipment**, to maintain office productivity and protect devices from sudden electrical failures.

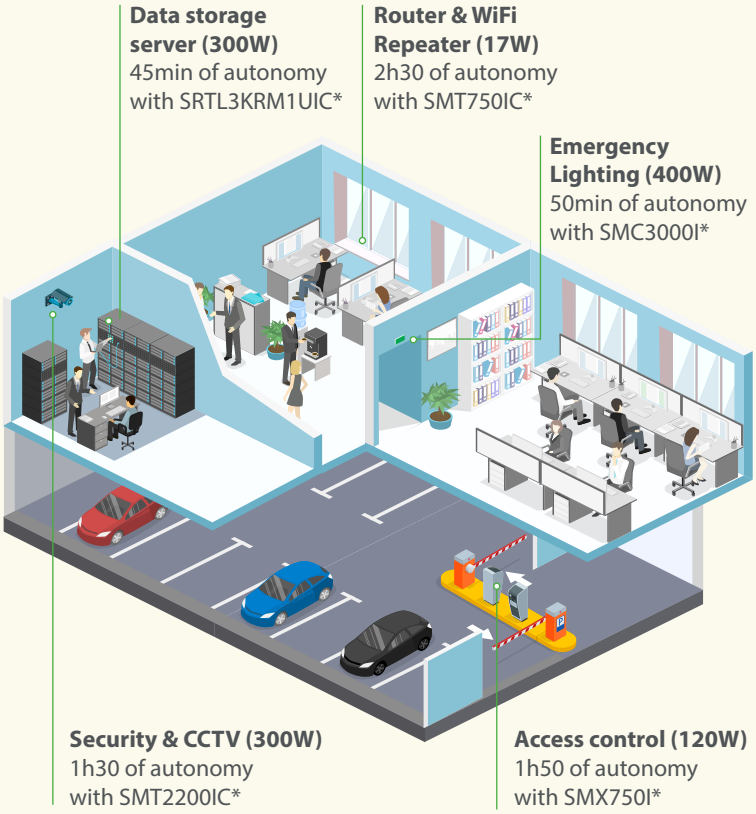

We offer a wide range of **UPS solutions** that deliver reliable power protection, so even in the event of a power blackout, **office premises** can guarantee:

IT connectivity
for a stable and uninterrupted office internet connection

Data availability
for seamless and undisrupted business continuity

Security and access
uptime of CCTV, staff access systems, and emergency lighting

Car park functionality
to ensure access control, emergency lighting and garage door access

UPS solutions from Schneider Electric:
Keeping office premises power-protected, even when power outages strike.

*The autonomy values given are an indication. This depends on the power of the equipment to be protected and how it is used. The power of the device to be protected should be checked by a qualified electrician if necessary. Schneider Electric cannot be held liable in the event of a malfunction or lack of autonomy.
