APPLICATION NOTE

SHARING INTELLIGENT SOLUTIONS

KEY WORDS:

Title:	Enable C-Bus Clocks In Learn Mode
Products Applicable:	All Learn Mode Output Units

This application note explains how to enable the C-Bus clock via Learn Mode. Obviously we can enable a C-Bus Clock via the Toolkit software, but to use the Toolkit software there needs to be a Clock already enabled.

If there is no active C-Bus clock on the C-Bus network, you will find that the C-Bus LED on all of the output units will be off.

To enable a C-Bus Clock via Learn Mode:

1. Find any Learn Mode output unit.
2. Press and hold down any of the Quick Toggle buttons on any output units for 10 Seconds. The Unit and C-Bus LED's will then begin to flash alternately.
3. On any of the output units, press and hold down any of the Quick Toggle buttons for 2 seconds.
4. The Unit and C-Bus LED should now be on solid.

The C-Bus Clock will then have been successfully enabled on that particular output unit.
