

**NOTE #:** 06-013-1

**DATE:** 25 January 2006

## **APPLICATION NOTE**

### ***SHARING INTELLIGENT SOLUTIONS***

**KEY WORDS:**

<b>Title:</b>	Importing an Archive
<b>Products Applicable:</b>	PICED, Schedule Plus & HomeGate

This application note will step you through the correct process of successfully restoring a backed-up PICED, Schedule Plus or HomeGate project. Please follow the steps below.

1. Open the PICED, Schedule Plus or HomeGate software.
2. On the first page of the Project Details Wizard, select the 'Import Archive' option and click next.
3. You will then be prompted to locate the archived file. Once you have selected the archive you wish to import click next.
4. You will then be prompted to allocate a directory for where all the associated project files will be installed to. Once you have selected a folder click next.
5. You will then be asked to install the Toolkit project. This will automatically select the relevant directories. Click next to continue.
6. You will then be prompted if any fonts need to be restored. If this is the case restore them and click Finish.
7. Finally, you will be prompted to open the project file. Locate the \*.ctd file and click Open.

The import process is now complete. You may find that the Toolkit project does not exist in the project list. If this is the case restart the software (including C-Gate).
