Product End of Life Instructions

Desk Occupancy Sensor

Potential disassembly risks

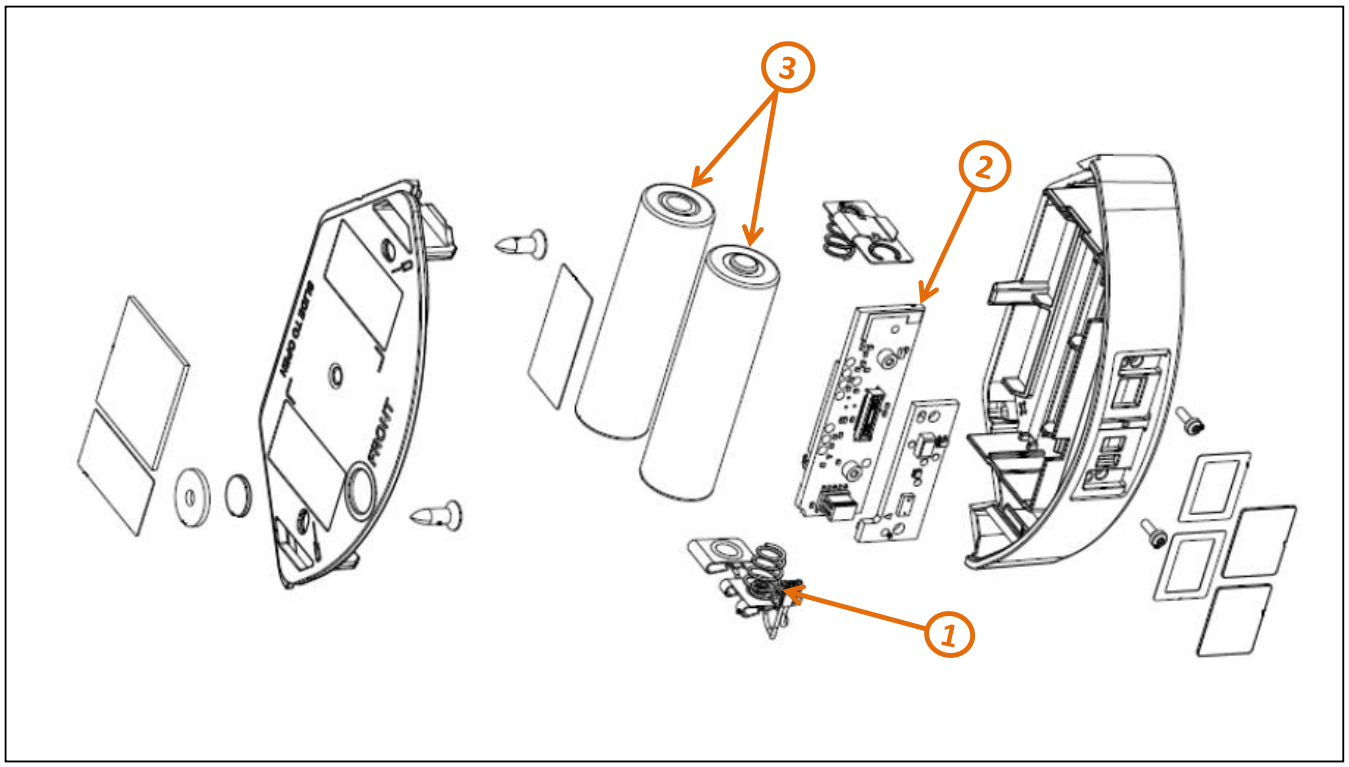

Risk of electric shock due to secondary electrical components connected.

This product has PCB Board electronics components materials which are recommended to be treated separately during the End of Life operations.

There are several steps to process the products at the end of life so as to recover components, materials or energy :
Reuse --> Depollution --> Dismantling --> Shredding

End of Life Instructions

Recommendation	Number on drawing	Component / Material	Weight (in g)	Comment
To be depolluted	1	Cable (high current)	0.002	Cables
To be depolluted	2	Electronic Board (Communication) > 10cm²	1.2	PCBA Board
To be depolluted	3	Other battery	34	Batteries

Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	Schneider Electric
Product function	The IoT Sensor Solution Desk Occupancy Sensor is a compact, battery-based, easy-to-install wireless sensor that is used in a variety of spaces to measure accurate desk presence.
Product reference	EBIOTPCWD
Total representative product mass	60 g
Representative product dimensions	19mm x 92.61mm x 50.91mm
Accessories	No
Date of information release	09/2022

Additional information

Legal information		This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.
Recyclability potential	**56%**	Based on “ECO’DEEE recyclability and recoverability calculation method” (version V1, 20 Sep. 2008 presented to the French Agency for Environment and Energy Management: ADEME).
