

# Product End of Life Instructions

## ComPacT, NSX Wireless Indication auxiliary

## Potential disassembly risks

The information provided in this document assumes that the product is completely de-energized and uninstalled (refer to the instructions provided in the appropriate product manuals).

Dismantling/disassembling the product may entail hazards caused by, for example, sharp edges, chemical aggression or ejected parts.

### WARNING

#### HAZARD DUE TO INSUFFICIENT PROTECTION

- Implement all safety measures required by the applicable regulations and by the processes used to dismantle/disassemble and dispose of the product.
- Use all necessary personal protective equipment such as gloves and goggles.

**Failure to follow these instructions can result in death or serious injury.**

## End of Life Instructions

Recommendation	Number on drawing	Component / Material	Weight (in g)	Comment
To be depolluted	1	Electronic Board (Communication) > 10cm <sup>2</sup>	4	
To be depolluted	2	Battery	4,2	

## Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	Schneider Electric
Product function	NSX Wireless Indication Auxiliary provide remote and local information about the breaker status. Depending of the position (OF/SD/SDE) and on the setting inside the gateway, the wireless indication auxiliary provides remotely ON/OFF/ TRIP indication. For SD position, it is possible to configure the wireless indication auxiliary to locally indicate a trip by an orange blinking LED that blinks during 8 hours in case of circuit breaker trip.
Product reference	LV429454
Total representative product mass	15 g
Representative product dimensions	34 mm x 12,5 mm x 23,2 mm
Accessories	1 tool
Date of information release	2023/06

## Additional information

Legal information	This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.	
Recyclability potential	2%	Recyclability rate has been calculated based on REEECY'LAB tool developed by Ecosystem, for components/materials not covered by the tool, data from the "ECO'DEEE recyclability and recoverability calculation method" was taken. If no data was found a conservative assumption was used (0% recyclability).
