Legal Information

The Schneider Electric brand and any trademarks of Schneider Electric SE and its subsidiaries referred to in this guide are the property of Schneider Electric SE or its subsidiaries. All other brands may be trademarks of their respective owners.

This guide and its content are protected under applicable copyright laws and furnished for informational use only. No part of this guide may be reproduced or transmitted in any form or by any means (electronic, mechanical, photocopying, recording, or otherwise), for any purpose, without the prior written permission of Schneider Electric.

Schneider Electric does not grant any right or license for commercial use of the guide or its content, except for a non-exclusive and personal license to consult it on an "as is" basis. Schneider Electric products and equipment should be installed, operated, serviced, and maintained only by qualified personnel.

As standards, specifications, and designs change from time to time, information contained in this guide may be subject to change without notice.

To the extent permitted by applicable law, no responsibility or liability is assumed by Schneider Electric and its subsidiaries for any errors or omissions in the informational content of this material or consequences arising out of or resulting from the use of the information contained herein.

Safety Information

Electrical equipment should be installed, operated, serviced and maintained only by qualified personnel. No responsibility is assumed by Schneider Electric for any consequences arising out of the use of this material.

A qualified person is one who has skills and knowledge related to the construction, installation, and operation of electrical equipment and has received safety training to recognize and avoid the hazards involved.

Safety Precautions

- This product is not intended for life or safety applications.
- Do not install this product in hazardous or classified locations.
- Read and understand the instructions before installing the product.
- Turn off all power supplying equipment before working on it.
- The installer is responsible for conformance to all applicable codes.

If this product is used in a manner not specified by the manufacturer, the protection provided by the product may be impaired. No responsibility is assumed by the manufacturer for any consequences arising out of the use of this material.

Scope

SpaceLogic SXWS Living Space Sensors do not, by default, hide unused light groups on the display.

However, unused light groups can be hidden using a workaround in the EcoStruxure™ Building Operation (EBO) software, as described in this document.

Note: This feature is only available in SXWS firmware version 1.16.xx and later.

Solution

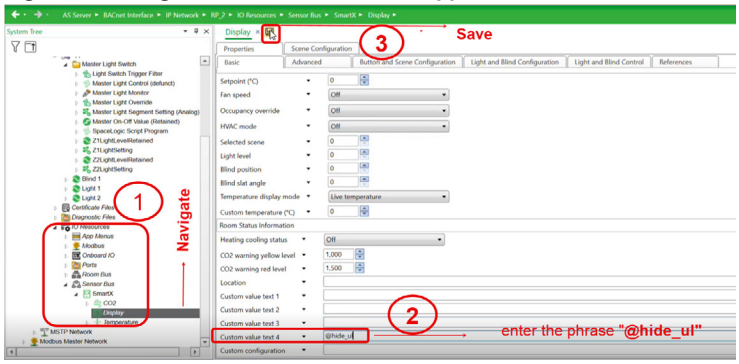

The workaround consists of adding a custom text in the EcoStruxure™ Building Operation (EBO) application to hide the unused light groups on the device.

Implementation

To complete this workaround, follow the steps below.

1. In EcoStruxure™ Building Operation (EBO), navigate to IO Resources > Sensor Bus > Device > Display, then open the Properties > Basic tab.
2. Scroll down to "C*ustom value text 4*" field, enter "**@hide_ul"**, and then click the **Save** icon.

Figure 1. Adding Custom text in the EBO Application

3. With this workaround, unused light groups will not be displayed on the device.

Figure 2. Before workaround

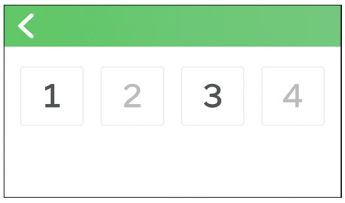

Figure 3. After workaround

2026 Schneider Electric All Rights Reserved.

To disable this feature, simply remove the phrase "**@hide_ul"** from the "*Custom value text 4*" field. Unused light groups will be displayed again (grayed out) on the device.
