Hydro-Québec's ENERGY EFFICIENT Solutions Program for Industrial Customers

Fast-track Energy Efficiency Projects & ISO 50001 Readiness with Schneider Electric

Efficiency Advisory Services

Energy Audits & Efficiency Studies

- **Energy Management System (EMS)**
- **Energy Management Information System (EMIS)**
- **Energy Data Management Software**
- **Industrial Digital Transformation Services**

Efficiency Advisory Services

Installation services by Schneider Electric experts or local certified partners

Efficiency Advisory Services

A 7-Step Guide to Accessing Incentives from Hydro-Québec

1 Project Planning

- Identify energy efficiency opportunities in your facility
- Choose between:
  - Simplified Option (using the OSE calculation tool)
  - Customized Option (for complex projects)

2 Energy Analysis

- Complete and submit an Energy Analysis Proposal Form to Hydro-Québec
- Conduct an energy analysis with a qualified provider—such as Schneider Electric

UNLOCK $100K in incentives over five years from Hydro-Québec to cover eligible energy analysis costs (measurement & validation) and Energy Efficiency Consulting fees. Receive up to $200k when your organization signs an Energy Efficiency Agreement with Hydro-Québec.

3 Technology Selection

Identify eligible technologies, collect technical specifications and cost estimates, and implement approved technologies for the energy management and digital transformation of your industrial operations.

RECEIVE UP TO $500K in subsidies over five years from Hydro-Québec for the diagnosis and deployment of an Energy Management System and/or an Energy Management Information System (95% of the cost is subsidized).

4 Application Submission

- Complete the application form via Hydro-Québec's portal
- Attach all required documentation:
  - Project scope
  - Equipment details
  - Budget estimates
- Submit the application for review

5 Review & Approval

- Prepare for a potential site visit to validate the project
- Receive approval and funding allocation

6 Project Implementation

- Install and commission the approved technologies
- Document the implementation process

7 Final Reporting & Reimbursement

- Submit final project documentation
- Confirm completion and performance
- Receive final disbursement of funds

$1M BONUS if **ISO 50001 certification** is completed in 12 months or less. 50% of the bonus is offered if completed in 24 months or less. Available to large industrials with energy consumption of 200 GWh/yr or more.

For full eligibility details and funding, visit Hydro-Québec's site:
