
Get modular smart panel functionality for less with Square D™

QO smart panel solution

Transform QO Plug-on Neutral panels into smart panels

The trusted leader in circuit protection has made it easier, faster, and less costly to upgrade Square D™ QO™ Plug-on Neutral (PoN) panels into smart panels.

Scalable and modular, this QO smart panel solution incorporates Square D™ control relays and the Schneider Energy Monitor (formerly Wiser Energy Monitor) for control at the circuit level and home energy management. Add Schneider X Series connected wiring devices for control at the plug and switch level.

If your homeowners are asking for smarter technology to make their homes more energy efficient, you can give it to them – at a price they can afford – all managed through the Schneider Home app. Now you can help them create homes ready for the future in a single upgrade, making it easy to add solar, EV charging, and battery backup.

Homeowner benefits:

- **Save money:** Understand where and how energy is being used and gain more control over their energy usage.
- **Reduce energy usage:** Remotely turn off power to specific electrical loads when unnecessary.
- **Extend backup power runtime:** Control what devices are powered on and off, anytime, even during an outage.
- **Monitor energy in one app 24/7:** Access and manage energy usage in real time with the Schneider Home app.
- **Future-proof their home:** Easily add solar, EV charging, and battery backup in the future.

Life Is On | Schneider Electric

Making your job easier

It's not just homeowners ... you benefit too.

- **Faster install:** Quickly and easily install the Schneider Energy Monitor and Square D™ control relays into the QO PoN panel.
- **Modular/scalable load control:** Install relays where your homeowners want circuit-level control of appliances like electric water heaters, ovens and HVAC systems. Add Schneider X series connected wiring devices for control at the plug and switch level.
- **Easy maintenance:** Easily swap out the impacted relay without replacing the entire load center, benefitting you and the homeowner.
- **Future-proof:** Choose QO PoN panels for a safer, more reliable product that simplifies adding future load control, solar, storage, and EV charging capabilities.

The leader in circuit protection is here to make your job easier.

The Square D™ QO™ PoN smart panel solution is just one example of Schneider Electric's 100-year legacy of building safety, reliability, and quality into every one of our electrical products.

If your homeowners are ready for a smarter, more energy efficient home of the future, we just made it easier and more cost effective with the new home energy management solution from Schneider Electric.
